NEW IMPROVED
HIDDEN ANCHOR HINGE

RECOMMENDED INSTALLATION

Dry Install

1  2  3/8" Stainless Hex Head Bolt
2  2  3/8" Expansion Anchor
3  2  1" Fender Washer
Hardware will be furnished as shown on page 1 for installation.

**To install unit on an existing concrete pad:**

1) Place both sections of the enclosure body (or one section and gate) on pad, making sure each piece will function. Mark location of hinges. FIG. 1

2) Mark locations to be drilled for anchors, making sure to align hinges with existing marks; 4 per enclosure. FIG. 1

3) Using a 5/8" concrete bit, drill holes for anchors a minimum of 2 1/4" deep.

4) Insert 3/8" x 2" long bolts into washer and hinge as shown on page 1 then thread anchors partially onto bolt.

5) Insert bolts and anchors into holes, tap with hammer until flush, and tighten securely. FIG. 2
